1. Identification of common food allergens.

List of common allergens will be displayed on the Notice Board of the School Canteen.

2. Identification of children with known food allergy.

Name of students with serious food allergies will be given to the Canteen staff with photographs for easy identification after obtaining consent from their parents.

Names of students with food allergy will be collected at the time of admission and given to all class teachers and other teaching staff.

3. Early recognition of development of signs and symptoms of food allergy and anaphylaxis.

Canteen and Teaching staff will be properly trained and updated on the recognition of development of signs and symptoms of food allergy and anaphylaxis.

4. Action plan for food allergy and anaphylaxis.

Canteen and Teaching staff will be properly trained on the action to be taking in case of development of any food allergy and anaphylaxis.

School Clinic will be fully equipped with life-saving medications. They will follow emergency protocol for the same.
